

Lounais-Suomen Hiihtotunneli  
**FINNFOAM PAIPPI**

• Open every day 8-21 • Rental for skiing equipment • Service for skis • Shop for skiing equipment •

# Welcome to ski

both in summer and in winter ! The conditions are excellent year round: no sleet, never too cold or windy, but always suitably cool (from -2 to -3 degrees).

The ski pipe Paippi forms a 700-meter-long one-way loop in a varied terrain among pine trees.

We create fine skiing experiences for everyone: perfect conditions for both active amateur skiers and for professionals, and different kinds of events for companies and other target groups.

The ski tunnel Paippi is located in Paimio, south-west Finland, off the motorway E18: half an hour from Turku and from Salo. It is 138 kilometers from Helsinki to Paimio. On the back page there is a map showing you the way to Paippi.

## SERVICE CLOSE TO PAIPPI

- Hotel Valtatie 1
